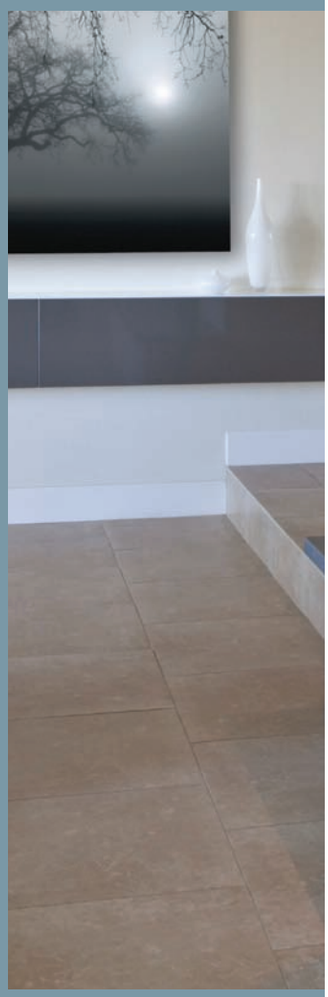
DIAMOND
A DOOR
YOUR
HOME

A Diamond Composite Door, brings warmth, comfort, style and security right to your doorstep. Using the latest in composite technology, this range of elegant, high performance doors will give your home and family all the style and protection you need, without the hassle of regular maintenance.

DIAMI

IOND



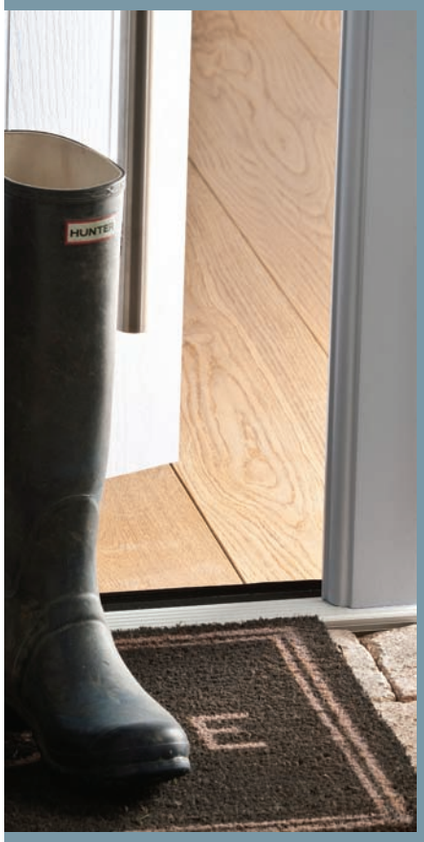
Adoor Composite

So what is composite, and what makes it the right choice for you?

Composite doors add beauty to function. Not only do they look great, they also provide the strength and quality your family needs. And because they're designed to be extremely low-maintenance, they will save you money and hassle in the future.

Your Diamond Composite Doors save you money in other ways too.

They improve the energy efficiency of your home, because they are made with especially durable materials including GRP and high density foam reinforced with a solid timber skeleton that won't warp or deteriorate – meaning your heat stays in your home and your money stays in your pocket.



It's easy to take a Diamond door for granted because it stays looking great year after year without any assistance from you!

There's no sanding, no painting, and no varnishing. No fuss at all.

All your door needs is an occasional wipe with a cloth once in a while to keep it looking pristine year after year.

Adoor Choice

You have a great choice of styles for your Diamond door. You can even match your favourite door and colour to handmade glass panels. Our in-house design team can create each double-glazed panel specifically to suit your door. We make it easier for you to choose the perfect door for your home.

Take your pick from over 25 styles, ranging from the classically elegant to the most contemporary.

We also have a choice of four solid door options.

Choose a style to complement neighbouring homes, or pick one that really stands out from the rest.

Set the tone for your home with the style, colour and features that really show off its character.

All doors shown in our brochure are Single Diamond doors, if you want to order double rebate Double Diamond please refer to the codes under each door style.

Adoor Colour

For a design to work, the detail has to be just right. That's why we make it possible for our customers to have the colour of their choice not just on the outside, but also on the inside, the rebate, the frames and even on the weather deflectors. So whether it's seen from the hallway, the doorstep or across the road, your door looks perfect from every angle.

Colours with character

Remember that the Diamond range gives you a choice of colours, in either the total-door or the white-inside option.

Find your ideal colour by referring to our colour swatches.

Show off your home's true colours on the outside, inside, rebate, frame and weather deflector of your door.

any colour you like, just bring along
a RAL or BS reference and we'll match it.

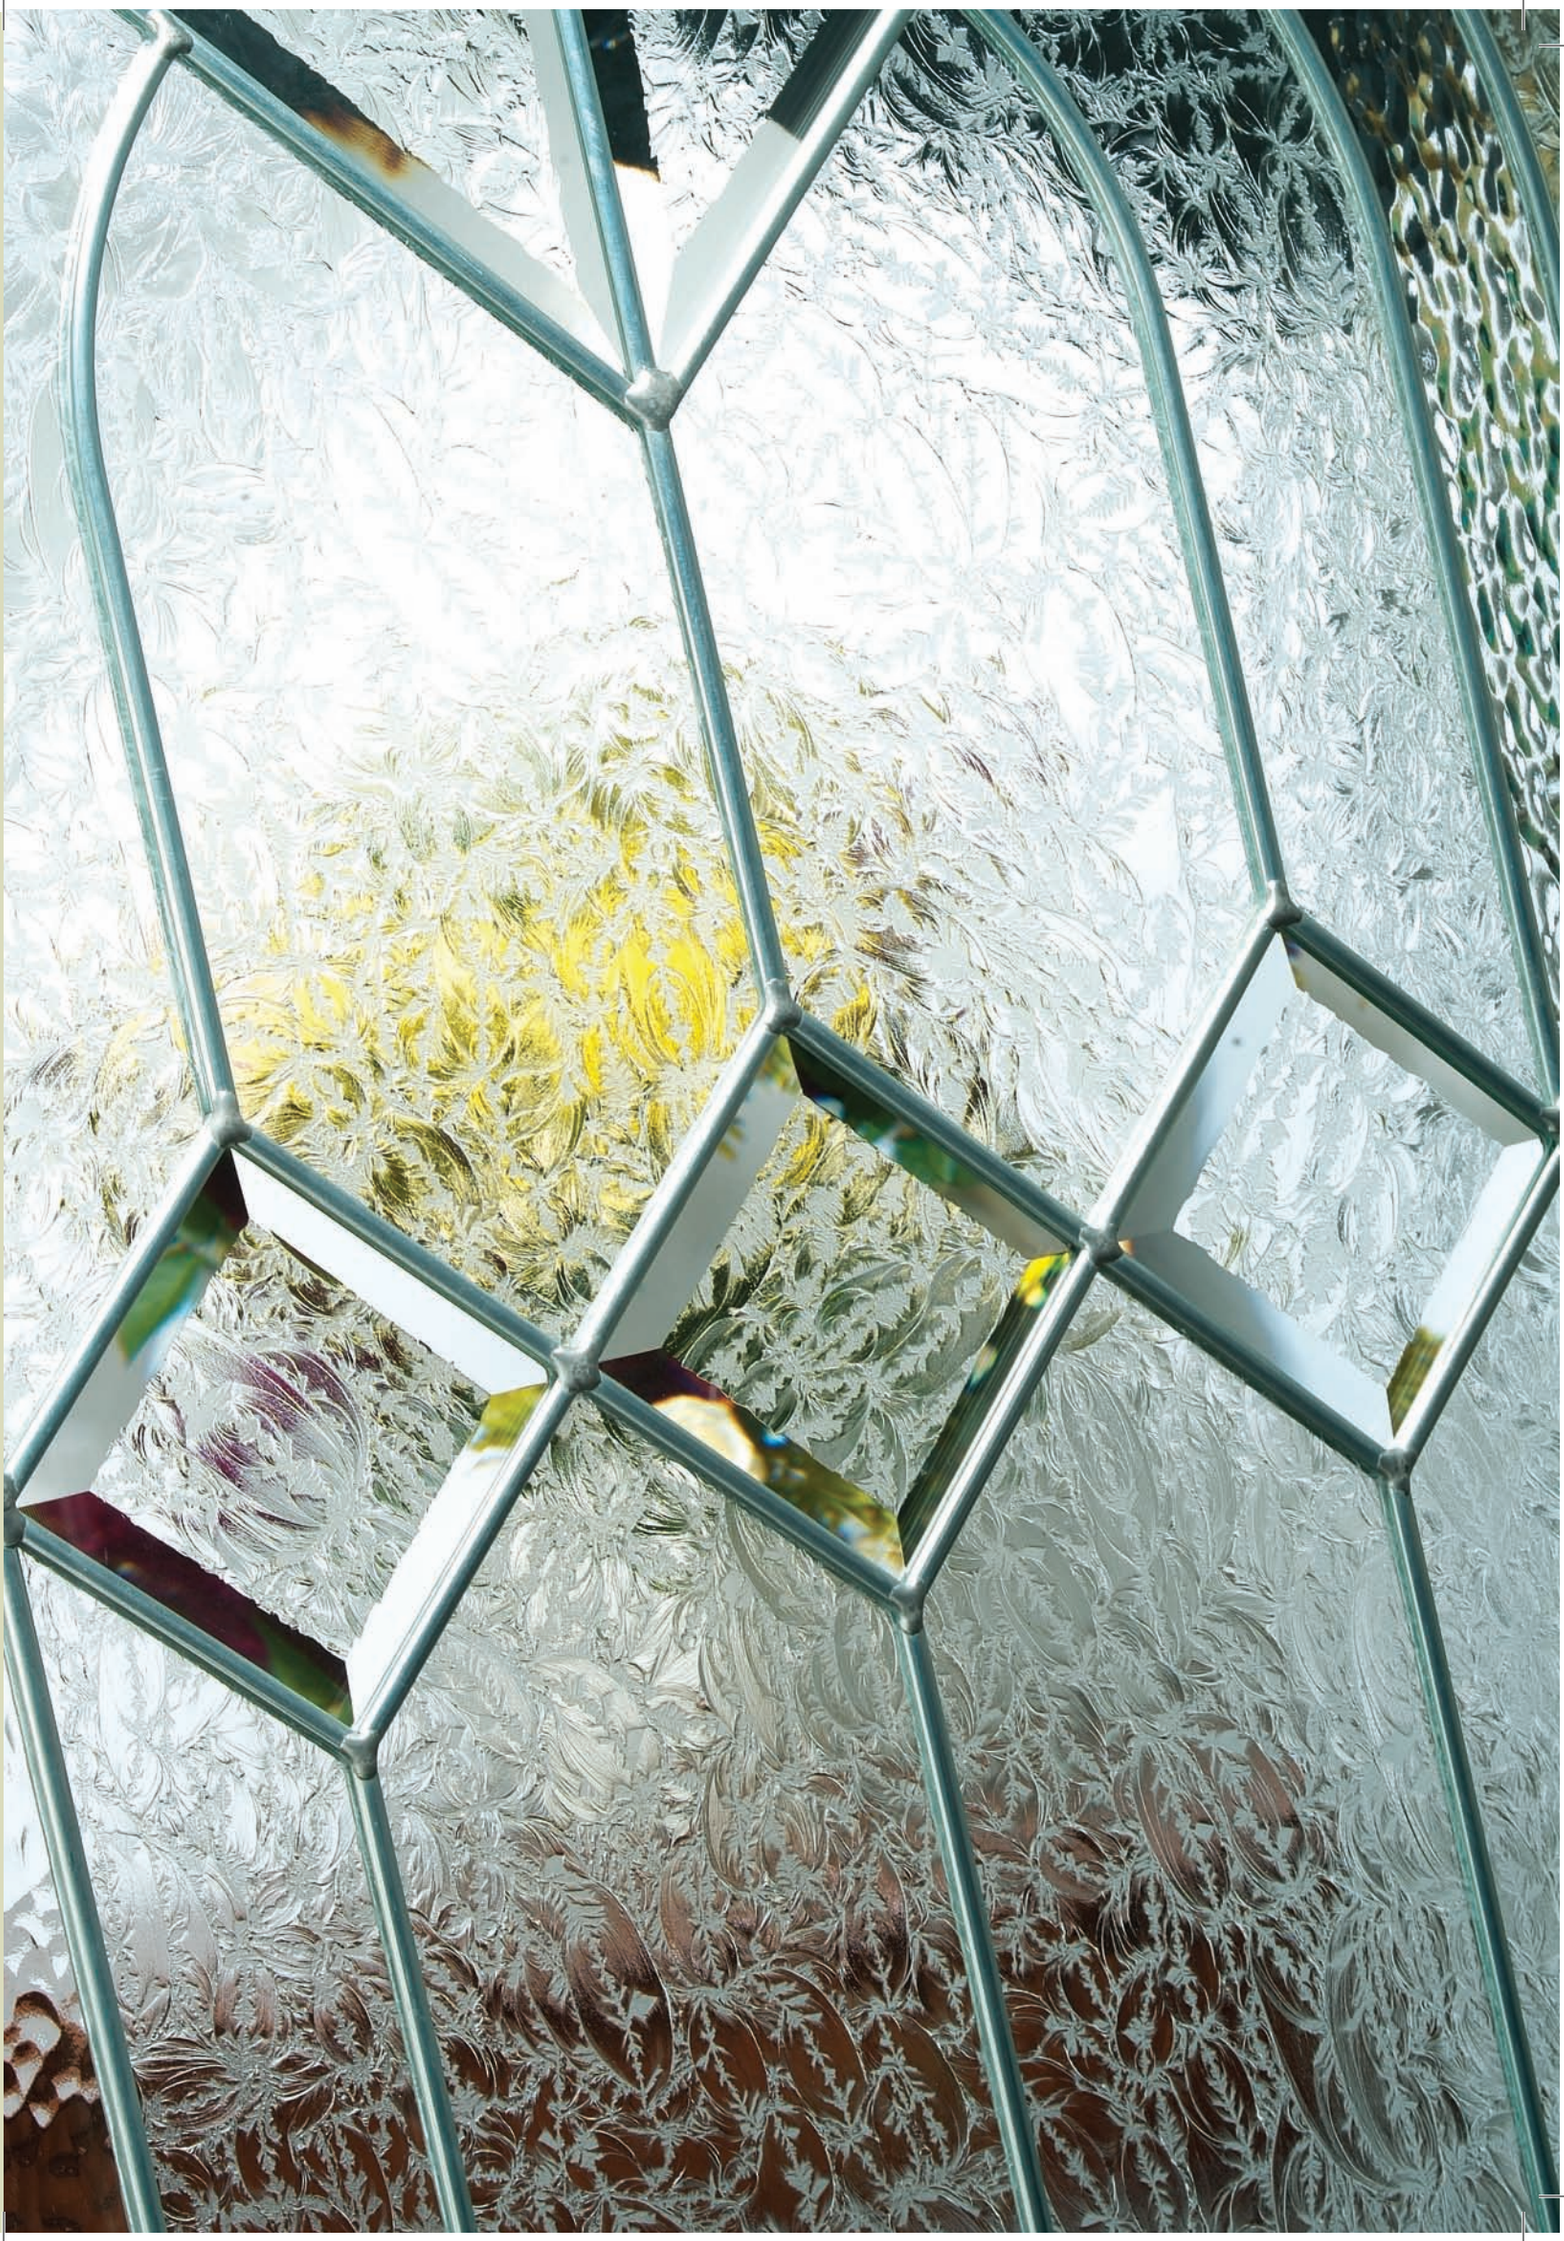
Adoor Light

Inspirational, beautiful and the ultimate in stylish practicality, our Elegance, Simplicity, Prairie and Royale glazing options provide you with a wealth of choice to enhance your Diamond door and create a first impression that lasts.

Using hand cut bevels and textured glass pieces, the decorative glass is assembled using traditional stained glass methods into Zinc cames, and double or triple glazed to give excellent thermal and sound insulation.

Please note: due to the unique construction of these glass designs, it is not possible to create matching sidelights or toplights. Elegance, Simplicity, Prairie and Royale glass is double glazed in Single Diamond doors and triple glazed in Double Diamond doors.

Please note due to the construction of the Elegance, Simplicity, Prairie and Royale glass ranges, there is a slight variance in colour in the Super Spacer glazing bar used in the triple glazed units for Double Diamond doors. Please note some Diamond door glazed style glazing trims contain grommets.



Adoor Security

Every Diamond Door comes complete with ‘Secured by Design’ police approval and the latest in anti-drill, anti-pick, anti-snap, anti-bump locks.

Single rebate
44mm of high density polyurethane foam with high grade LVL engineered timber inner frame, double glazed decorative units and fitted into a flush fit uPVC door system. Single Diamond only opens inward.

Double rebate
70mm of high density polyurethane foam with high grade LVL engineered timber inner frame, triple glazed decorative units, extra insulation and security from a double rebate uPVC system. Double Diamond opens inwards and outwards. Double Diamond doors are available as French style double doors.

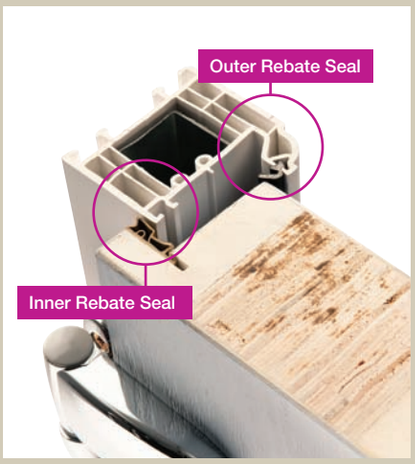
With 'Secured by Design' police approval, Diamond doors use the latest in locking technology to challenge even the most experienced criminals.

Multi Point Locking System
This high security system is fitted as standard to reinforce the concept of safety in your home.

Kitemark Security Cylinder
Anti-bump, anti-drill, anti-pick and anti-snap Kitemarked cylinder lock barrels are fitted as standard.

Winkhaus Locking System
Our new range of bar pull handles operate with a Winkhaus Lock and an escutcheon plate. Classic lever lever handles are also available.

High Density Core
High density core with LVL engineered timber wood offers increased sound and energy efficiency.



Double Diamond
Double twin seal rebate for extra strength, security and insulation.

Kitemark Glass
All glass is Kitemarked toughened glass, either double or triple glazed.

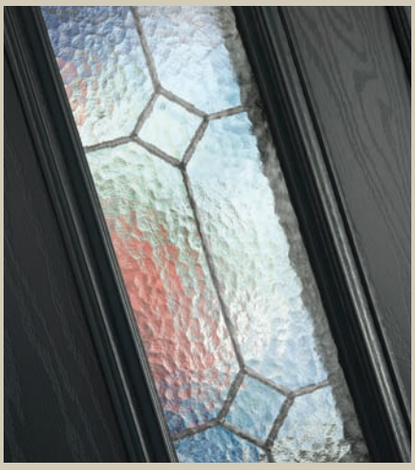
GRP Skin
Both sides of our doors have 2mm fibreglass (GRP) skins which ensure a tough and durable finish with lifelike grain.

Weather Deflectors
Weather deflectors are fitted to protect against the elements.

Reinforced Frame
Diamond doors are fitted into steel reinforced PVC frames for a strong secure doorset.

Locking System
Multi point locking system reinforces the concept of safety in your home.

Hinges
Flag hinges can be fitted to Double Diamond doors.



Decorative Glass
Wide range of glass designs available with toughened glass as standard.
